

INVITATION | GDB 2022

Green Design Biennale, Mostar

Dear Duncan Baker Brown,

Herewith I would like to invite you, on behalf, of the Sarajevo Green Design Foundation and Organizing Committee of Green Design Biennale 2022, to participate in 10th International Green Design Biennale. This year's Biennale will take place from 12 to 14th October in Mostar.

The aim of the Biennale is to capture and share the leading innovation and developments that will shape the sustainable and circular world of tomorrow. At the center of the debate are concepts, strategies and tools for effective resource use within built environment. In order to make a shift towards responsible use of natural resources within products, buildings and cities, they need to be designed with recovery, reuse and up-recycling of resource streams in mind. GDB places design at the center of the transformation towards sustainable development, which is holding one of the keys to sustainable circular world and economy.

Some of previous speaker at Green Design Events in Sarajevo and Mostar were: Ken Yeang (London), Hana Tümertekin (Istanbul), Michael Braungart (Frankfurt), Michael McDonough(New York), Bert Gregory (San Francisco), Hiroto Kobayashi Japan, Joe Coenen The Netherlands and many others. This year's themes are dealing with **digitalization and implementation of circular economy in architecture and design of healthy and inclusive green buildings and cities.**

Attached you will find announcement and concept program. Your lecture could be scheduled on **12th or 13th of October.**

The organization would provide accommodation for you during your stay in Mostar, and cover your travel expenses. Could you please let me know if you will be able to join international Green Design Biennale in Mostar until 30th of August.

It would be our honor to have you as our guest this year.

Dr. Elma Durmisevic
President of Sarajevo Green Design Foundation and
Founder of Green Design Center for South East Europe
